

Regulatory Update on Dicamba products

Nufarm has several Agricultural products containing dicamba. At this time, these products are not affected by the new federal EPA restrictions, which are only for those products labeled for over-the-top use on dicamba-tolerant crops. These products are not affected by restrictions being put in place in Illinois, Minnesota, or North Dakota. However, some of these products may be affected in states listed below. Please check with your state department of agriculture to confirm specific restrictions prior to making product applications (website references listed below):

Product	EPA Reg. No.	State with Restricted-Use Classification or Restrictions that May Affect Product*
Burnmaster Herbicide	71368-108	Arkansas
Clash Selective Herbicide	228-615	Arkansas, Indiana, Missouri, Tennessee
Diablo Herbicide	228-379	Arkansas, Indiana, Missouri, Tennessee
Scorch Herbicide	71368-117	Arkansas
Spitfire Herbicide	71368-109	Arkansas
Vanquish Herbicide	228-397	Arkansas, Indiana
Weedmaster Herbicide	71368-34	Arkansas

*Please check with your state's department of agriculture and confirm dicamba restrictions prior to making product applications.
