

WeedMaster®

Depend on Weedmaster®.

Weedmaster® is a selective, post-emerge herbicide that provides tough, long-lasting control of a broad spectrum of annual, biennial and perennial broadleaf weeds and brush. The growth regulating effects of 2,4-D and dicamba interfere with the normal development of weeds, ultimately causing plant death.

FLEXIBLE FORMULA WITH DEPENDABLE RESULTS

- Dependable broad-spectrum control of annual and perennial broadleaves
- Can improve yield or forage quality by preventing competition from weeds
- Flexible application options
- Excellent tank-mix partner with other herbicides such as Diablo®, Razor®, Polaris®, Patriot®, Trooper™, and Tahoe®

EPA REG. NO.	71368-34
ACTIVE INGR.	dicamba (12.4%), 2,4-D (35.7%)
FORMULATION	liquid
CHEM. FAMILY	benzoic acids, phenoxyaliphatic acid
GROUP NO.	4
MODE OF ACT.	auxin growth regulator
SIGNAL WORD	danger
RESTRICTED	no
PACKAGE SIZE	5 x 1 gal, 2 x 2.5 gal, 30 gal, 265 gal tote, bulk

Grow a better tomorrow.

KEY USES

Conservation Reserve Program (CRP) land, general farmstead, pastures, rangeland, non-crop areas, rights-of-way, forest brush, industrial sites, and non-irrigation ditchbanks

KEY WEEDS CONTROLLED

(See product label for complete list)

ANNUALS:

Buckwheat, wild
Carpetweed
Chickweed
Clover
Cocklebur, common
Daisy, English
Henbit
Knawl
Lambsquarters
Morningglory
Mustard
Pigweed
Purslane
Ragweed
Smartweed
Velvetleaf

BIENNIALS & PERENNIALS:

Bindweed, field
Carrot, wild (Queen Anne's Lace)
Dock, curly
Dogfennel
Knapweed, Russian
Milkweed
Ragweed, perennial
Ragwort, tansy
Sorrel, sheep
Spurge, leafy
Thistle, Canada
Thistle, musk
Toadflax, dalmatian

WOODY BRUSH AND VINES:

Alder
Birch
Cherry
Elm
Kudzu
Poplar
Sumac

USE SUMMARY

RATES

Regardless of the species to be controlled, spray volumes should be high enough to allow for good spray coverage. Make applications when weeds and brush are actively growing. The addition of surfactants can increase control. Biennials are best controlled when treated in the rosette stage. Regrowth may occur on resistant species. To control additional weed species, this product may be tank mixed with any of the products listed on the label.

See label for complete directions for use.

APPLICATION RESTRICTIONS

PRE-EMERGENCE (ANNUAL AND PERENNIAL WEEDS)

Limited to 2 applications per year.
Maximum of 5.5 quarts (2.0 lbs ae 2,4-D) per acre per application.
Minimum of 30 days between applications.

POST-EMERGENCE (WOODY)

Limited to 1 application per year.
Maximum of 11 quarts (4.0 lbs ae 2,4-D) per year.

Applications to non-cropland areas are not applicable to treatment of commercial timber or other plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes.

See label for complete application restrictions.
