

Weedar® 64

2,4-D Workhorse for a Variety of Uses.

Weedar® 64 is a low-volatile, premium DMA-4 formulation that offers good mixing and weed control of more than 100 hard-to-control weed species that overtake industrial and non-crop areas. This 2,4-D “workhorse” is registered for a variety of settings, including fencerows, roadsides, ditches, right-of-ways, power lines, railroads, airports, and forested areas, as well as rangeland and pasture.

KEY PERFORMANCE BENEFITS

- Readily soluble in water and forms a true solution
- Broad-spectrum broadleaf phenoxy herbicide in a low-volatile formulation
- Versatile label includes industrial sites, ditches, forested areas and aquatic weed control

EPA REG. NO.	71368-1
ACTIVE INGR.	2,4-D amine (46.8%)
FORMULATION	liquid
CHEM. FAMILY	phenoxy-carboxylic acid
HRAC NO.	4
MODE OF ACT.	synthetic auxin growth regulator
REI	48 hours
SIGNAL WORD	danger
RESTRICTED	no
PACKAGE SIZE	5 x 1 gal, 2 x 2.5 gal, 30 gal, 265 gal tote

 Vetch

*Not for use in California

USE SUMMARY

Treat annual broadleaf weeds when young and actively growing perennial weeds should be in bud stage and not flowering. Apply Weedar® 64 only in areas known to be tolerant to 2,4-D. If you are uncertain concerning tolerant varieties or local use situations, consult your state extension service or distributor for advice.

RATES: Maximum Individual Application Rates

Aquatic

Annual broadleaf weeds..... 2 to 4 pints/Acre
 Biennial and perennial broadleaf weeds 4 pints/Acre
 Susceptible wood plants 4 pints/Acre

CRP

Annual broadleaf weeds in young grasses..... 1 pint/Acre
 Annual broadleaf weeds in established grasses..... 2 pints/Acre
 Biennial and perennial broadleaf weeds in established grasses 4 pints/Acre

Non-Cropland

Annual broadleaf weeds..... 4 pints/Acre
 Biennial and perennial broadleaf weeds 8 pints/Acre
 Southern wild rose broadcast application 8 pints/Acre

Rangeland, Pasture, Grasses for Hay

Annual broadleaf weeds..... 2 pints/Acre
 Sand shinnery oak / sand sagebrush..... 2 pints/Acre
 Biennial and perennial broadleaf weeds 4 pints/Acre
 Broadleaf weed control in newly sprigged coastal bermudagrass 4 pints/Acre
 Wild garlic and wild onion 4 pints/Acre

See label for spot treatment directions and tree injection applications.

See label for complete directions and use.

APPLICATION RESTRICTIONS

Do not apply to newly seeded grass areas until grass is well established.

Bentgrass, St. Augustine, clover, legumes and dichondra may be severely injured or killed by this treatment.

Use 2 or more gallons of spray solution per acre.

Do not harvest forage or hay from treated areas for 7 days after application.

Applications to non-cropland areas are not applicable to treatment of commercial timber or other plants being grown for sale or commercial use.

Post-emergence annual and perennial weeds, limit 2 applications per year.

Post-emergence wood plants, limit 1 application per year.

Weedar 64 contains 3.8 lb of 2,4-D per gallon. When tank mixing with products that contain 2,4-D, do not exceed a combined total of 4 lb/A per year.

See label for complete application restrictions.
